Secretary of Treasury
Confers With Bankers.

(ASSOCIATED PRESS TELEGRAM)
New York, August 3.—Between
\$10,000,000 and \$50,000,000
emergency currency arrived in New
York today from Washington and
was loaded on twenty trucks to be
hauled to the sub-treasury. This
announcement was made at the sub-
treasury after the secretary of the
treasury had started back to Wash-
ington.

(ASSOCIATED PRESS TELEGRAM)
New York, August 3.—Decision
to enforce the sixty day clause be-
fore withdrawal of deposits was
reached today by members of the
New York State Savings Bank Asso-
ciation.

All savings banks in the state are
affected.

The clearing house at a meeting
today decided to issue clearing
house certificates to meet the cur-
rency situation brought about by
the European war crisis.

The decision to issue certificates
was reached after a general discus-
sion of the foreign situation and its
bearing on business conditions here.
It was the unanimous opinion that
in view of the foreign situation
every means should be adopted to
protect the country's gold supply. It
was voted, therefore, that for the
present and until further notice the
association place itself upon a cer-
tificate basis.

An additional resolution was
adopted making available in pay-
ment of balances all forms of cur-
rency based on authority of the na-
tional government.

This indicates the desire by the
bankers to use freely the currency
issued to the national currency as-
sociation and to the fullest extent
for the requirements of their cor-
respondents and the needs of in-
terior exchange.

Taken by the association since
similar action during the panic of
1907 Secretary McAdoo of the
treasury department, who came
from Washington last night to at-
tend a conference with New York
bankers, started back for the cap-
ital at 9:30 o'clock today.

John Skelton Williams, comptrol-
ler of the currency; Charles S.
Hamlin and W. P. G. Harding, mem-
bers of the federal reserve board,
who came from Washington with
Mr. McAdoo, remained here and
were in conference at the sub-tre-
sury during the morning.

Stoc kexchange brokers reconciled
themselves today to the probability
of a prolonged suspension of the
market in New York. W. C. Van
Antwerp, a member of the board of
governors said he believed it prob-
able the exchange would remain
closed while the European war was
on and that brokers were trying to
readjust themselves to the prospect
of being idle for several months.

The financial aspect of the situa-
tion, he said, was a serious one.
Members of the exchange realized
that they would suffer enormous
losses should the period of suspen-
sion be prolonged, for, while re-
ceipts in the form of commissions on
stock exchange transactions would
be cut off, expenses go on as usual.

In the cases of some of the larger
stock exchange firms these expenses
run up to \$500 to \$1,000 a day.

Although immediate resumption of
business is not expected brokers
have hesitated to disorganize their
machinery by dismissing employees
and cutting off private wires, for in
case a sudden reopening of the ex-
change they would be unable to
transact business.

Most of the contracts with the tel-
egraph companies for private wires
contain a clause permitting the les-
sees to discontinue the service on

Important Tax Ruling Regarding School Boards Made by Attorney General

(ASSOCIATED PRESS TELEGRAM)
Columbus, Aug. 3.—Boards of edu-
cations may issue bonds equal to the
sum that would be raised by a two
mills tax on the duplicate of the pre-
ceding year without a vote of the
people, Attorney General T. S. Hogan
said today, in an opinion to H. F.
Castle, prosecuting attorney of Sum-
mit county. Such a bond issue is in
anticipation of income from taxes to
secure funds for the acquisition of re-
pair of school property. The entire
school levy must not exceed five mills,
however.

Semi-charitable institutions, such as
fraternal homes and retreats for girls,

Latest Photograph of Europe's "War Lord."

This is the latest photograph of Kaiser Wilhelm, the "War Lord," who is believed to have counseled Emperor Franz Josef in his attack on Serbia which is bringing on a general European war. For many years the Kaiser has talked war, only to remain the greatest peace maker of Europe. All that time he has been preparing his army and building a German fleet. Military experts declare that the German army organi- zation is now the most perfect ever known on such a large scale. Some of them think the Kaiser has come to the conclusion that the hour for action has struck.

Reliable News Service.

The Associated Press, the premier news gather- ing agency of the world, is now the only medium of authentic news distribution covering the European situation. Its known reliability puts it in close touch with the governments of the world, and all authentic news is first carried by it.

Detail descriptions of events that, from the nature of the case, government censors would not allow to cross the border, will be the stock in trade of the "wild cat" news service.

There is only one authentic, conservative news as- sociation dealing strictly in facts—namely, the Asso- ciated Press.—Columbus Dispatch.

The Advocate is the only newspaper in Licking county that is served by the Associated Press. This newspaper receives the full report of the Associated Press over its leased telegraph wire running into The Advocate editorial room.

RETURN OF AMERICANS IS ASSURED

(ASSOCIATED PRESS TELEGRAM)
New York, August 3.—Relatives and friends of Americans in Europe were cheered by announcement of steamship agents that as there would be very few immigrants leaving Europe because of war, there would be room in steerages of the big liners still in commission, for all wishing to return home. The announcement added that there were many attrac- tions in the steerage not generally known, and, further, that if passen- gers purchased first and second class tickets they would be entitled to the decks and public rooms according to the class paid for.

It was estimated that the total steerage accommodations on a dozen liners sailing from England and the continent early this month would be 62, 000 and as not more than half would be required for immigrants at least 31,000 Americans stranded in Europe could find accommodations.

RELIGIOUS SERVICES AT BERLIN

Soldiers in Marching Kit
Participated At the
Bismarck Monument

STATE WILL PROVIDE

For Families of Reservists
Who Are Summoned to
the Cause—Invasion of
Russian Territory By the
German Troops Began To-
day.

(ASSOCIATED PRESS TELEGRAM)
Berlin, August 3.—The mobiliza-
tion of the German army proceeded
today with absolute calm. There
were few signs in Berlin that any-
thing extraordinary was happening
with the exception of great crowds
at the railroad stations and the lack
of taxicabs, half of which had been
requisitioned by the army authori-
ties.

An open air religious service at-
tended by many soldiers in march-
ing kit was held today around the
Bismarck monument outside the Im-
perial parliament house. All joined
in the Lord's Prayer.

A notice was issued by the police
stating that the emperor's strength
and time were absorbed by the work
imposed on him at this serious hour
and that it was not proper for him
to be disturbed by popular demon-
strations.

In accordance with the Imperial
constitution the King of Bavaria,
Saxony and Wuertemberg have
placed their armies under the com-
mand of Emperor William.

The Grand Duke of Mecklenburg-
Strelitz and the Duke of Brunswick
are to take the field.

"The families of all soldiers of the
reservists summoned to the cause
will be provided for by the state."

An official communication pub-
lished here today concerning the be-
ginning of the war says: "In con-
sequence of a Russian attack on
German territory Germany is in a
state of war with Russia."

"The French reply to Germany's
note has been received in the mean-
time and is of an unsatisfactory
character. In addition France has
ordered the mobilization of her army
in that at the outbreak of war be-
tween Germany and France must be
awaited at any moment."

Another semi-official communica-
tion issued today says: "While no
German soldier has yet set foot on
French soil official reports from the
frontier state that French troops in
bodies as large as a company cross-
ed the German frontier at Gottesbal
Netteral, Marknoh and the Schlucht
pass before there was any declara-
tion of war."

"A breach of neutrality also has
been committed through the fact
that French military airmen in great
numbers have flown over the Bel-
gian and Dutch territory on their
way to Germany."

The invasion of Russian territory
by the German troops began today
when the first battalion of the 155th
infantry with a machine gun com-
pany occupied Kalisz, in Russian Pol-
and.

The German infantry which has
made a rapid advance from Ostro-
woin Prussian Poland was accom-
panied by the First regiment of Ger-
man Uhlans known as the Emperor
Alexander III of Russia's Uhlans.

French soldiers crossed the fron-
tier last night at Lachlucht, a small
village in the Vosges mountains.
Shots were fired as German posts
but no damage was done.

eral Alvaro Obregon, commander of
the division of the northwest arrived
here today and his troops are mobil-
izing here for the movement on
Mexico City.

This place is only 180 miles north-
west of Mexico City. Obregon's
forces probably will converge with
those of General Carranza, who re-
cently took Guanajuato.

Irapuato was taken after heavy
fighting. During the battle the fed-
erals lost about 200 killed and 800
prisoners. General Blanco's losses
were about the same.

APPEAL

MADE BY PRESIDENT WILSON FOR CALMNESS DURING EUROPEAN WAR.

Bases His Suggestion Upon Broad
Grounds of Americans' Duty to Mankind.

(ASSOCIATED PRESS TELEGRAM)
Washington, August 3.—President
Wilson today appealed to the people
of the United States to remain calm
during the war in Europe. He de-
clared the United States owes it to
mankind to help the rest of the
world during the present crisis.

The President declared the United
States could gain great and perma-
nent glory during the present trou-
ble and he urged that nothing be
done in America to add to the ex-
citement of the world. There is sure
to be inconvenience to the financial
institutions of the country he told
the callers, but added that the ad-
ministration is fully prepared to help
out all difficulties.

The President declared there was
no cause for any serious alarm in
the United States. The administra-
tion is bending every effort, he said,
toward getting ships to carry the
foodstuffs and other products of the
United States to all the world and to
bring home Americans stranded in
Europe.

A proclamation of neutrality, Mr.
Wilson said, will be issued as soon
as it can be completed by the state
department.

MANAGERS WILL GIVE ANSWER TO PRESIDENT

(ASSOCIATED PRESS TELEGRAM)
Washington, August 3.—Man-
agers of the 98 western railroads
threatened with a strike of 55,000
engineers and firemen have framed
their answer to President Wilson's
request that they settle the difficulty
for the general good of the country
in the present situation. They will
present it to the president later to-
day and meanwhile will not indicate
their decision.

At President Wilson's plea that
a strike be averted because of the
sensitive situation in the United
States as the result of the European
crisis the railroad managers visited
the White House just before noon
and addressed the President that
they would accept the plan proposed
by the federal board of mediation
which had already been passed upon
favorably by the representatives of
the engineers and firemen. The
plan provides that the question of
wages shall be arbitrated under the
Newland act.

The decision of the railroad man-
agers was given personally to the
President today by a committee
headed by A. W. Trenholm.

President Wilson told callers he
had every reason to believe that the
railroad managers would be patri-
otic and that a strike would be
averted.

Germany's Seizure of Belgian Territory May Be Decid-
ing Factor Which Will Lead Britons to Take the
Sword In Hand As England Stands Pledged to
Maintain Belgium's Neutrality—British Navy May
Take Action Today—German Fleet Reported Sail-
ing Into North Sea Where British Fleet Is Said to
Be Concentrated.

(ASSOCIATED PRESS TELEGRAM)
German troops invaded Russian Poland today and
occupied the town of Kalisz.

The German army violated the neutrality of Belgium
of which Great Britain is protector. German troops oc-
cupied the Belgian town of Arlon.

Belgium had previously refused to consider an ulti-
matum offering a certain agreement with Germany in
case Belgium agreed to facilitate the movements of the
German army.

So grave is the situation regarded that a coalition of
government of all parties probably will be formed in the
British Isles while it was generally expected that Field
Marshal Earl Kitchener was to be appointed minister of
war.

Dowager Empress Maria of Russia was stopped by
Germans in Berlin on her way to Russia and told to re-
turn to London or go to Denmark.

Martial law was proclaimed throughout France; the
mobilization and concentration of the various armies
have been carried out satisfactorily.

The German authorities accuse the French of violat-
ing neutrality and of crossing the frontiers before the
declaration of war.

Neutral Luxemburg is occupied by 100,000 German
troops.

The Russian naval port of Libau on the Baltic was
bombaraded by a German cruiser, which was also en-
gaged with a Russian cruiser.

The German fleet was reported sailing to the North
Sea where the British fleet is said to be concentrated.

The German ambassador had not yet left Paris to-
day.

Fighting between Russian and German cavalry pa-
trols on the frontiers resulted in slight losses.

French officers are reported to have attempted to
cross the Dutch frontier into Germany, but were unsuc-
cessful.

French airmen are said to have made daring flights
over German territory.

German cavalry is reported to have crossed the
French border near Belfort and tried to commandeer
horses.

the European conflict.

GRAVE VIEW OF SITUATION TAKEN TODAY

(ASSOCIATED PRESS TELEGRAM)

London, Aug. 3.—Violation of neutral territory by Germany, daring frontier raids by Germans, Russian and French troops, clashes between outposts, the bombardment of a Russian Baltic port by a German warship and the seizure of merchant ships by Russia and Germany, constituted the striking features today of the war in which the whole continent of Europe has started.

The position to be taken by the British empire remained still to be defined this morning, but it was feared that Germany's seizure of Belgian territory would be a deciding factor which would lead Britons to take the sword in hand, as under the treaty of London of 1839, Great Britain stands pledged to maintain Belgium's neutrality.

Evidence was not lacking of the grave view of the situation taken by all classes in the United Kingdom. The leaders of the opposition parties were called into council by the cabinet and it was reported that the cancellation of Field Marshal Kitchener's return to Egypt was a prelude to his appointment as minister of war.

It was asserted in authoritative quarters that due warning had been given to Germany yesterday of the intention of the British navy to take instant action in case German soldiers should set foot on Belgium soil. In spite of this and of the prompt refusal by the Belgian government to accept the agreement offered by Germany as the price of the violation of Belgian neutrality, German forces penetrated the little buffer state at two points on their way to the French frontier.

The German point of view in regard to the situation thus brought about was explained at the German embassy as follows:

"The German general staff has been reliably informed that French troops are assembling in great numbers on the Belgian frontier preparatory to crossing."

"The German government therefore informed the Belgian government that if, for strategical reasons, German troops were compelled to traverse Belgian territory this move should not be considered in any way a war-like measure directed against Belgium, but only as a necessity imposed by French initiative, and that if Belgium offers no armed resistance to such a movement, Germany will guarantee the Belgian government the maintenance of its territorial integrity and sovereignty and the fullest compensation for any inconvenience caused by the passage of the imperial troops."

The German embassy also stated that it was quite certain no questions would arise in connection with German troops crossing the Dutch frontier or in any way interfering with that neutrality.

A strong belief was prevalent here today that Field Marshal Earl Kitchener is about to be appointed British minister of war. His return to his post in Egypt was cancelled today.

The British government today decided to extend the bank holiday over three days.

A bill temporarily suspending the payment of bills of exchange passed through all its stages in a few minutes in the house of commons. The measure contains power to declare a moratorium.

Toward the close of his speech Sir Edward Grey said: "We must be prepared and we are prepared to face the consequences of using all our strength at any moment we know not how soon, in order to defend ourselves."

Wild cheering from all parts of the house greeted John E. Redmond, the Nationalist leader, when he assured the government that every soldier in Ireland might be withdrawn tomorrow and the coasts of Ireland would be defended against invasion by her armed sons, the Catholics of the South and the Protestants of Ulster.

Andrew Bonar Law, leader of the opposition, warmly supported the government and referred, amid cheers, to the pledges of support received from the British dominions.

Sir Edward Grey added that if a foreign fleet came down the English channel to bombard the French coast "we could not stand aside."

The foreign secretary stated that the British fleet had been mobilized and the mobilization of the British army was taking place but that no engagement had yet been made by the British government to send an expedition abroad.

Walter H. Page, the American ambassador, on the urgent representations of the compatriots here, has asked the American government to furnish as soon as possible, transportation home to the thousands of Americans marooned on the continent of Europe and in London.

Mr. Page also has asked the state department at Washington to take such steps as are necessary to assure that letters of credit and travelers' checks are recognized by American consuls at all points in Europe so that Americans may be supplied with money.

EMPEROR GREETED BY GREAT THROG AT ST. PETERSBURG

(ASSOCIATED PRESS TELEGRAM)

Austrian Reservists at Consul General's Office Clamoring to Go Back Home to Join The War

A few hours after the Austrian general consul for the United States in New York had issued a call to arms to the reservists of the Austrian army in the United States the office swarmed with them. From far and near about New York they had come to offer their services and to learn when they should be shipped back. Vice-Consul Friedrich Fisherer, as shown in the photograph, was so busy taking names and addresses of the applicants that all other business was suspended. It has been said there are 100,000 reservists of the Austrian army in the United States. These men are under oath to return to Austria any time the call comes. It is believed the oath precludes them from swearing allegiance to the United States, as would be required were they to become naturalized citizens.

ing to a desire of the public to show their loyalty and patriotism.

Hours before the appointed time for the service a crowd of 100,000 gathered at the scene bearing flags, banners, portraits of his majesty and placards with patriotic inscription.

When the imperial yacht with the emperor and his family arrived from Peterhof at 4 o'clock in the afternoon, they received a tremendous ovation, the people all kneeling and hurrahing as the imperial party passed to the palace.

When their majesties had taken their places for the service, the priest read the declaration of war. A Te Deum was sung for victory of the Russian arms and their majesties venerated the Holy Cross and the ikon.

The emperor then addressed the representatives of the army and navy in a brief speech, expressed the calm dignity with which Russia had received the declaration of war and the confidence of the nation that the war would be carried to the desired end.

"I here declare solemnly," the emperor said, "that I will not make peace while a single soldier of the enemy remains on Russian soil."

His majesty concluded with words of encouragement to the army by invoking a blessing on their efforts.

FIGHTING ON THE RUSSIAN FRONTIER

(ASSOCIATED PRESS TELEGRAM)

Allenstein, East Prussia, Germany, August 3.—The fighting on the Russian frontier was confined to small engagements between cavalry outposts until 6 o'clock last evening, but an attack was then made by the Russian invaders on Johannsburg which is occupied by a squadron of the Pomeranian dragoons.

The railroad from Johannsburg to Lyck on the Russian frontier has been cut and also the light railroad running to Dlottowen.

The losses of the Russian troops are believed to have numbered about 20 men while the Germans have not lost any killed although several have been slightly wounded.

PROMOTION FOR FORMER STUDENT OF OLD DENISON

It is said that W. F. Chamberlin of Dayton, formerly of Granville, has been promoted to the home office of the Travelers' Insurance company at Hartford, Conn.

Mr. Chamberlin has been prominently associated with the Travelers' insurance company in Dayton for the past few years and previous to being connected with that company was a prominent manufacturer of Dayton.

He graduated from Denison University in 1892 and made his home in Granville for a few years before moving to Dayton. A few years ago he was the national president of the Phi Gamma Delta fraternity. His ability as an organizer is well known throughout the state, and for many years was organizer in one of the leading churches in Dayton.

A Plea For the Kitchen.

The kitchen should be the refinery, the laboratory, the factory of the home and the pivot point about which the activities of the home revolve. Cost should be considered thoughtfully; no scrap of food should be wasted. It can be and should be used again in various ways. By buying staple food supplies in large quantities from 15 to 30 percent can be saved. Any one wishing to do so may economize in this way. Housewives must not look upon their art as mere drudgery; they must bring education, intelligence and concentration into practice. They should learn as manufacturers here, that the best results are to be obtained in a workshop that is well lighted, properly ventilated and comfortably large, suitably furnished and sanitary in all its equipments.—Dr. Adeline G. Soule in Leslies.

Many of the forest fires attributed to railroads are caused not by sparks from the locomotives, but by cigar and cigarette butts thrown from smoking car windows.

MARTIAL LAW FOR FRANCE AND ALGERIA

(ASSOCIATED PRESS TELEGRAM)

Paris, Aug. 3.—The German ambassador was still at his post in Paris today and there was no indication of his intention to leave.

Throughout the night aeroplanes had flown hither and thither over the city watching the horizon toward the eastern frontier while searchlights swept the skies and made it almost impossible for any hostile air craft to approach.

The streets of the French capital today presented a deserted aspect. All the motor omnibuses and most of the taxicabs had disappeared, having been requisitioned by the army, while a large proportion of the men had gone to join their regiments.

(ASSOCIATED PRESS TELEGRAM)

Paris, Aug. 3.—A decree proclaiming martial law throughout France and Algeria was issued by President Poincaré today after a meeting of the cabinet. The president also summoned parliament to meet tomorrow. All telegrams were refused at the postoffice in Paris for a period of ten days and it is assumed that the difficulties in the transmission of news and private dispatches will rapidly increase.

The concentration of the French troops in strategic positions along the frontiers, and the operation of the military train service have been carried out to the complete satisfaction of the military authorities.

The pillage of a German jewelry store in Paris and other incidents of a more or less grave nature, particularly raids against the stores of those merchants who have raised the prices of necessities caused the prefect of police today to placard an appeal to Parisians to maintain order.

Vigorous measures are to be taken against the dealers raising their prices to exorbitant rates.

An appeal to the press issued this morning asks the newspapers to use caution in publishing news about the war which might help the enemy. It recalls the imprudent revelations made in 1870 and the great aid afforded in this way to Germany at that time and declares that any news published without the consent of the military authorities renders the offender liable to a charge of treason.

The fact that France intends to mobilize her forces to the last man is indicated by a bill to be introduced in parliament tomorrow permitting men who have failed to preserve themselves for their term of compulsory military service to join the army now without liability to punishment.

Deputies from the French colonies issued an appeal today to colonial residents in Paris to offer their services to the government.

Some Americans here have offered to fight for France and a suggestion has been made that a corps of Americans should be organized here. The mobilization has not passed off without an occasional humorous incident. Today a captain who was carrying his equipment along the street stopped a horse cab and asked the driver to take him to the eastern railroad terminus. The cabman refused, whereupon a crowd of bystanders picked up the captain, drove him in the vehicle, pulled the driver from his seat and rolled him in the street while a man from the crowd jumped up and drove the officer to the station.

New Orleans, Aug. 3.—Hundreds of French subjects residents of Louisiana are responding to the call to arms issued yesterday by Consul General Ferrand, Picards announcing the official decree of French mobilization have been posted and are causing excitement among the thousands of Frenchmen here.

Consuls of German and Austro-Hungary also are enlisting their countrymen.

There are thousands of American-born Frenchmen in Louisiana. Many already have signified their intention of enlisting as volunteers.

Asbestos Has Many Uses.

Asbestos is the most important fireproofing material known. Its fibrous structure adapts it to a wide range of applications—from woven fabrics, such as theater curtains and articles of clothing to asbestos shingles, stucco, plaster, asbestos "wood" and various other forms of building material that render structures thoroughly fireproof. Its lightness, strength, durability and insulating properties against heat and electricity give it special advantages for use in constructing cars and electric motor subways. The most common uses of asbestos are for asbestos paper, millboard, pipe covering and lagging to inclose heat pipes, furnaces and locomotives in order to prevent loss of heat in transmission. As a nonconductor of heat it may be used not only in the preparation of fireproof safes and vaults, but also for cold storage and cooling structures. Houses made of asbestos materials or coated with asbestos throughout are not only warmer in winter, but cooler in summer.

Deadends.

If it were customary or possible for the king of Great Britain and Ireland rigidly to exercise his royal prerogatives he would in the course of a few months become the owner of many vehicles, especially motorcars, that traverse the streets and roads of his kingdom, since he is entitled to all deadends. A deadend is "an article which has proved the immediate and accidental occasion of the death of any reasonable creature." This right was for hundreds of years enforced as a means of swelling the royal exchequer and, legally speaking, could still be enforced. If a man were killed by being run over the vehicle and its contents, as well as the horse, became the king's property. The number of "reasonable creatures" (and dogs might be included by some within this category) run over by motors in England would keep the king in automobiles until he would be obliged to construct many garages.—Harper's Weekly.

Mad Paul of Russia.

Russia's first Paul was no less insane than his father, Peter III., although his madness was longer in manifesting itself. So violent was his hatred of the revolutionary round hats, a fashion imported from France, that one day he sent 200 police and dragoons to scour the streets of St. Petersburg and tear them from the heads of all who wore them. He banished all the cabmen from his capital because one of them was found with a pair of pistols on him. Hundreds of his officers and courtiers were sent in chains to Siberia for a glance or a word that displeased him, many without any cause at all, and he sent an entire regiment on a 2,000 mile march because in drilling it had failed to understand one of his indistinct words of command.

Rowing and Morality.

From the moral standpoint there is no branch of athletics which is such a character builder as trying for a place in an eight oared shell. I've heard a wide variety of college critics say that rowing gets out the finest class of men who try for any team. Certainly the long period of training offers little to the flashy type of man who must have the prospect of immediate reputation. There is no branch of athletics which so truly teaches the lessons of life. Steady, consistent effort, cheerful work under discouraging conditions, good comradeship and good sportsmanship when they come to another college, these are the habits which working for a place in the varsity shell instill into the American undergraduate.—James Rice in Outing.

Aerial Analysis.

If the late William Wright ever had a romance he managed to keep the secret, and no one seemed to know. However, he was not without views on the subject. A reporter once asked him why he had never married. "It's the easiest thing in the world to drive an aeroplane," he answered, "and it's just as easy to get married." Then he added, "Women and aeroplanes are so much alike that you can't analyze either until you get them going."

DAVID MANNING SAW TENNIS PLAY AT LONGWOOD

David R. Manning writes the sporting editor of the Advocate from Heron Island, Me., that the foursoe golf match which was to have been played at Brookton, Mass., in which his brother was to have been paired with him against two other experts for the championship of the Walk-Over shoe company, was called off as his brother would not leave his work at the time.

Mr. David Manning is spending his vacation in the East, and saw all of the big tennis stars play at Longwood.

C. M. A. DEFEATED DELAWARE 15 TO 3

Sunday afternoon the C. M. A. defeated Delaware at that place 15 to 3, although the score was one sided, some very good baseball was played, especially Reese and Willey, the former accepting ten out of eleven chances, and the latter getting all of his eight.

The C. M. A. boys were badly crippled, but after the first inning had netted them six runs there was no getting around them then.

The features proved to be the fielding of Reese, Cross and Willey, and the hitting of Crawford, Noblicks and Brown.

Next Sunday the C. M. A. will play at Roseville. Following is the score:

Two Fires in Chicago Cost Half Million

Chicago, Aug. 2.—Two spectacular fires which threatened to destroy vast coal and lumber yards in the southwestern part of the city last night, caused the death of a baby and a loss of property estimated at \$500,000.

Joseph Finsler, a watchman, in the yards of the W. O. Sling company, and his wife, left their child in its crib while they attempted to extinguish a fire in a lumber pile. The flames spread rapidly, cutting off their return to their home, and the baby was burned.

The second fire in the yards of the O. S. Richardson coal company, damaged property to the extent of \$200,000, while the first fire was placed at \$300,000.

IF BACKACHE OR KIDNEYS BOTHER

Eat less meat and take a glass of Salts for the kidneys. Drink plenty water.

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied and wonderful effects were obtained. By asking at any drug store for "Weyth's Sage and Sulphur Hair Remedy," you will get a large bottle of this, old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well known downtown druggist says everybody uses Weyth's Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant. Agents Hall's Drug Store.

Automobiles.

One-fourth of all the motor cars of the world are owned in the United States. There are now 1,400,000 registered cars in this country.

Great Britain is second with 250,000 and France third with 93,000. Persia has thirteen and Liberia one. Many large cities in foreign countries have no motor cars.

For instance, Canton, China, with its population in excess of 2,000,000 is now awaiting arrival of a vehicle which does not have to be pulled by a donkey.

E. Merle Hooper, Standard Oil representative in Canton, on leaving for the United States several months ago, promised his almoned eyed friends that he would return with a vehicle which would run itself. However, there is only one street in Canton wide enough for a motor car. The Chinese are just awakening to the value of good roads and have several tentative plans for highway improvements.

Value of Exercise.

The somewhat frequent indispositions to which President Wilson is subject are noted with regret and some uneasiness. He has been more or less upset several times during the past eight months. So slight an exposure as lower temperature encountered in an automobile ride recently laid him up for a day or two.

The president's experiences are very like those that most men of sedentary habits have to meet. It is true that a president has to encounter an extraordinary nervous strain. Yet the physical conditions of his work, like ventilation, etc., must be exceptionally favorable.

Most men give slight attention to measures of health preservation. They would not hesitate to work extra hours a day if they saw some addition to their income in it. But ten minutes a day for simple gymnastics that might greatly increase their working capacity are impossible.

If it pays Mr. Wilson, with the tremendous pressure on his time, to give a half hour or more a day to a physical culture trainer, surely it would pay the ordinary man to devote a little time daily to physical exercise.

Stiff Collars.

Most men pride themselves on their independence of fashion plates. They laugh at the woman for subservieney to the Paris dressmaker. Then they proceed to demonstrate their independence, by wearing through hot weather the stiff starched collars that throttle their perspiring necks.

In the circles of simpler life, a more philosophic habit prevails. The farmer or the mechanic has nothing to lose by dressing for his work. But if the lawyer or business man walked down to his office collarless, and with sleeves rolled to his elbows, his stenographer would ask mother if it was a proper place for her to work.

It can at least be said for the starched collar that it gives an appearance of trig neatness that has its value to the business man. But the younger fellows do not feel that anything short of a broad expanse of white linen is consistent with their style. With heads elongated by high collars, they march down street like snapping turtles in their shells and pride keeps them cool.

On Tuesday of next week the voters of Ohio will have their first opportunity of deciding their choice of state and county candidates. Herebefore these candidates have been selected at conventions. This year the voters themselves will select the candidates. On last Saturday the Advocate published a complete list of the candidates of all parties. The matter should have every voter's careful consideration before he goes to the polls on August 11 in order that he may vote intelligently.

Every voter in Licking county should go to the poles on Tuesday, August 11.

MARY ROBERTS RINEHART.

There used to be a foolish rumor that women have no sense of humor, and can't inspire a smile but Mrs. Rinehart's joyous stories among their other charms and glories, have wit that's worth the while. Her "senses of humor" fairly bubbles, and makes a guy forget his troubles, his worries and debts of all the cheerful books. I treasure, of all which give me endless pleasure, her novels are my pets.

The fiction fans, in countless legion, throughout all sane, enlightened regions, entranced, enraptured look, when busy publishers are hinting that they are now engaged in printing another Rinehart book. That means another round of laughter, without distress or colic after, a tonic for the mind, a solace for the soul that's weary, a book to cheer the day that's dreary, and ease the beastly grind. They say that Mary's coining money. I hope it's true—a dame so funny should have a big reward; she came, this great and graceful writer, she came to make the gray world brighter, anointed by the Lord.

GLENNA ARNOLD
Son of Mrs. Rebekah Arnold of Newark

A teacher was instructing her class on the composition of sentences, and wrote two on the blackboard, one to exemplify a misstatement of fact and the other to illustrate bad grammar. The sentences thus read as follows: "The hen has three legs. Who done it?"

The teacher then called to one of the children, "Harry," she said, "go to the blackboard and show where the fault lies in those two sentences."

Harry slowly approached the blackboard, evidently thinking hard. Then he took the chalk and wrote:

"The hen never done it. God done it."

"Once upon a time, James," admonished his mother, "there was a little boy who ate too much pudding, and he burst!"

James considered. "There ain't such a thing as too much pudding," he decided.

"There must be," continued his mother, "else why did the little boy burst?"

James passed his plate for the fourth time, saying, "Not enough boy."

COMMENDS THE MANAGEMENT OF GIRL'S SCHOOL

Commendation for the management of the Girls' Industrial School in Delaware county is embodied in the report of the Licking county board of visitors, which will be filed with Probate Judge Hunter, Prosecuting Attorney Jones and county commissioners probably Tuesday.

The report speaks highly of the plan of selecting a woman as head of the institution, "because it enables the superintendent to be in closer touch and great harmony with the inmates of the school." The institution occupies a farm of 189 acres and houses 462 girls. Miss Edna Henderson, of Newark, is one of the teachers there.

The county board of visitors inspected the school on last Friday. On the occasion of its visit Mrs. McNamara, the matron, held a conference with board members and the nine Licking county girls now in the institution, in which the inmates expressed themselves as well satisfied with their treatment, says the report.

The list includes five girls from Newark and one each from Ulida, St. Louisville, Hanover and Toboso.

PASTOR WARD SURPRISED BY BIBLE CLASS

Rev. W. D. Ward, pastor of the Church of Christ, preached to a full house Sunday evening, on "Lot's pitch, and his all toward Sodom."

This Bible school class gave him a surprise by arriving long enough outside to cause a little uneasiness upon his part why the usual audience was so small.

Presently 73 men marched in and occupied seats reserved for them in the middle tiers. This explained to the pastor his curiosity up to this time, why the audience preferred the seats at the sides, and why ladies who usually come with their husbands, came alone.

Rev. Mr. Ward will leave Tuesday for a four weeks' vacation.

LICKING COUNTY PEOPLE WHO ARE TOURING EUROPE

Not a few Newark people now touring Europe find themselves practically marooned in the very midst of the impending war. Few, however, are actually believed to be in the danger zone.

Miss Elsa Hirschberg, daughter of Mr. and Mrs. Sol Hirschberg, Pearl street, has been living in Berlin. No mention of the war scare was made in her last letter home a few days ago.

Dr. E. A. Galbreath, former Newark dentist, resides with his family in Hannover Langelaube, Germany. Mr. Galbreath was formerly Miss Edie Atherton of Newark.

Miss Mary A. Sprague has not been heard from for some time, but was last in London. It is believed by her family here that she may have gone to Switzerland since the outbreak of turmoil likely to involve England soon.

Mr. and Mrs. Edward H. Everett have been touring England, and had intended to travel through Scotland before going to pay a visit to their daughter in Florence, Italy. It is believed they, too, are in Switzerland.

Michael Haag, 395 South Second street, passed through Hamburg during the past week and is believed to be with friends in the interior of Germany.

Mr. and Mrs. Evan E. Jones, Mr. and Mrs. Jonathan Jones and Miss Ruth Dittler were in England when heard from recently, and had planned to tour Wales. They had booked passage to United States from Liverpool, August 22 on the Mauretania, but in view of cancellations being made by the foreign steamship agencies, with the likelihood of England soon becoming involved, their plans may have to be materially changed.

Many other Newark and Granville people are in Europe, but all are believed to be out of the danger zone although liable to considerable inconvenience owing to the disrupting of the schedule of sailing dates of trans-Atlantic liners. Miss Sarah Buckingham, Mrs. Christina Reinbold and daughters, Misses Frieda and Hattie, J. M. Owen, D. L. Davies, Miss Nina Webb, Mr. and Mrs. David Watkins, Mr. and Mrs. Wm. Sherrard, Mrs. Paul Beifeld and son of Granville, John D. Fitzgerald, Mrs. Samuel Holman and two children, Mr. and Mrs. Emory Lock and children, and John Richmond of Granville, Prof. W. A. Chamberlain of Denison university, is also touring Europe with a party of friends.

Associated Press dispatches from Washington to the Advocate say that Secretary Bryan has been reassured that all Americans in Europe will be aided in returning home. Bankers who usually serve the state department abroad have informed Secretary Bryan that hotel and steamship companies abroad would accept checks issued by authority of the United States government through its diplomatic representatives.

Foreign steamship agents have announced that as there would be few immigrants leaving Europe because of war, there would be room in steerages for all wishing to return home on the big liners. The announcement added that there were many attractions in the steerage not generally known, and, further, that if passengers purchased first or second class tickets they would be entitled to decks and public rooms according to the class paid for.

Miss Edith Thomas, Newark High school teacher, is due to arrive in Liverpool this week. Mrs. Elizabeth Jones, mother of Mrs. Joseph Kuster, III, was to have left New York Saturday but her sailing date will be subject to the change in schedules. Fred Giorgetta is in Italy with relatives. Miss Kathryn Simonds of Columbus, formerly of Newark, is said to be in Italy.

Prof. Samuel E. Swartz and wife, former Newark residents, are believed to be in Europe. No recent word has been received from them. They left early in June, expecting to spend some time in Wales before going to the continent. Prof. Swartz was for thirteen years principal of the Newark High school and is at present professor of chemistry in Fairmount college, Wichita, Kansas.

WHAT NEURASTHENIA IS

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases, like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are over-sensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed toward building up the blood. Dr. Williams' Pink Pills act directly on the blood and with proper regulation of the diet have proved of the greatest benefit in many cases of neurasthenia.

A tendency to anemia, or bloodlessness, is shown by nervous patients, is also corrected by these tonic pills. Your own druggist sells Dr. Williams' Pink Pills.

Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by Dr. Williams' Medicine Co., Schenectady, N. Y., if you mention this paper.

Face Peeling Easy—Bleed or Brunette

The blonde's complexion fades early, because her skin is extraordinarily thin and fine, says Mme. Lina Cavalieri. "The brunette's, as a rule, is the reverse. The skin is thicker and has a tendency to an oily appearance."

For either the faded blonde's skin or the brunette's oily or sallow complexion, the best remedy is ordinary mercurized wax. Used every night, this will give one an entirely new complexion within about a week's time. The wax gradually peels off the worn-out surface skin, without affecting the delicate undergrowth in the least. The latter will have the exquisitely beautiful glow of youth—indeed, one may readily lose ten or fifteen years from her age, so far as appearance goes, by a course of this simple treatment. The wax, procurable at any drug store, is applied like cold cream.—Advertisement.

RATE INCREASE GRANTED WEST OF PITTSBURG

Interstate Commerce Commission
Readers Divided Opinion—No Advance From Buffalo or Pittsburgh to Atlantic Seaboard.

(Associated Press Telegram)
Washington, August 3.—Although overshadowed by a great European crisis, the interstate commerce commission's decision in the freight rate case, a matter of first importance to the United States, was discussed by official circles here today with widely divergent views. The commission's action in allowing practically all the advances the railroads asked west of Buffalo, Pittsburgh and Charleston, W. Va., and denying absolutely those east thereof, was pronounced by some as a favorable decision and by others decidedly unfavorable.

Much attention was attracted by the dissenting opinion of Commissioner Daniels of New Jersey, President Wilson's first appointment to the commission. His contention that a general five per cent advance should be granted on any of the roads was pointed out, however, that Commissioner Hall of Colorado, also appointed by the president, was with the majority in deciding that no general increase was warranted. In view of the divided decision, the probability of a request for a rehearing, possibly after two years, the period in which these increases allowed will be effective, was considered among the moves the roads might make. The commission's intimations that rates in the territory where increases were granted still were low, was taken to forecast an application for further increases in that section. A general movement for an increase in passenger fares, in view of the commission's suggestions in that regard was considered as among the early probabilities.

Washington, August 3.—In a divided opinion late Saturday the interstate commerce commission wanted some of the 5 per cent freight rate increases asked by the Eastern railroads and denied others.

Increases will apply in the territory north of the Ohio and Potomac rivers and from a vertical line drawn through Buffalo and Pittsburgh west as far as the Mississippi river. All class rates and many commodity rates are increased 5 per cent in that section.

No advances whatever were permitted east from Buffalo and Pittsburgh to the Atlantic seaboard. That excludes from the area from which the railroads will receive benefit the greatest traffic-producing centers of the country.

Commissioner Daniels and McChord dissented from the majority opinion. Mr. Daniels held that a 7 per cent increase should have been granted—that the railroads were entitled to it to meet the high cost of living.

Chicago Grain.

Chicago, Aug. 3.—Despite war news coming thick and fast, wheat prices today tended downward. Absence of an immediate foreign demand was largely responsible.
The opening which ranged from 3 1/2¢ to 3 3/4¢ advanced 1/4¢ to 3 3/4¢ followed by a general setback of 1 to 1 1/2¢ and then by a rally which was in some cases complete.
Corn traders paid but little attention to war news. The chief influence was the lack of rain in some of the important producing areas of the domestic belt. After starting 1/4¢ to 3/8¢ higher, the market scored further gains.
Liberal selling at times on the part of the elevator houses weakened the oats market. Otherwise, trade was light.
Provisions in general and notably lard were depressed. Shutting down of foreign supply followed by the stoppage of ocean sailings brought about a stop-loss selling here. The drop in prices for lard nearly equaled a cent a pound. Shipments for pork and ribs were unusual, but not so severe as for lard.

BIG BREAK IN HOG MARKET

(Associated Press Telegram)
Chicago, Aug. 3.—Sensational declines took place this afternoon in the value of hogs. Prices broke as much as 50 cents on the hundred weight.
Tightening up of the money market drove speculators out of the market, and left prices depending almost wholly on the packers, who, owing to a setback in the provision market, were not inclined to buy on a large scale.

thirty days notice. Such a notice was given today by several of the wire houses, with the expectation that should trading be resumed in the meantime the wire would be re-engaged.

The general situation has been made more acute by the poor business which Wall Street experienced for many months.

The special committee of five brokers appointed last week met early today and it was said, would continue in session each day during the time that the exchange is closed. This committee will attend to the settlement of such points as may require adjustment acting as representatives of the stock exchange firms and will keep in constant touch with the European situation with the view to determining the probable chances for the resumption of business.

Secretary McAdoo, just before he left the city said:

"We are going to work together to relieve the position of Americans abroad, and anything that the government can do in their behalf will be done."

"If American bankers ship gold to England," Mr. McAdoo was asked, "will it violate our neutrality?"

"I cannot pass on that," he said.

WILSON APPROVES THE RELIEF PLAN.

(Associated Press Telegram.)
Washington, Aug. 3.—President Wilson in conference with Secretary Bryan today approved plans for financial assistance of Americans abroad.

Main features are as follows: American ambassadors have been

instructed to issue 'ambassadors' orders or checks in exchange for letters of credit, travelers' checks or express orders.

Instructions have been sent by the state department to American embassies to arrange with French, British and German governments to cash such checks.

Steamship companies have been asked through American diplomatic officers to accept embassy checks for transportation.

Friends and relatives of Americans in Europe seeing money may deposit any sum with the state department here and an equivalent sum will be issued in the form of an ambassador's order abroad.

Two representatives of New York banking houses will start at once for London and Paris to arrange for the further financial accommodation of Americans.

Ambassadors Herrick and Page have been instructed to co-operate with them.

An emergency appropriation will be asked for from congress to care for deficiencies.

Postmaster General Burleson has arranged to issue international money orders limiting the amount to \$100 for each person. The postoffice department will lend every assistance possible in transmitting money to Americans in Europe.

Receives Commission.

The commission of Joseph R. Moser as a special policeman for the Ohio Electric Railway company, signed by Governor Cox, and giving special authority for three years from May, 1914, was filed with Clerk of Courts Horton Monday.

Military Strength of Great Powers

Thirty-four million men are ready for service in the Triple Alliance and the Triple Entente are finally brought into war by Germany, Russia, Austria-Hungary and Serbia.

The Triple Entente, exclusive of Serbia, has 20,000,000 available men, or about 6,000,000 more than has the Triple Alliance.

The strength of the combined navies of the Entente in ships, tonnage, armament and number of men would exceed the naval strength of the Alliance. The following table shows the strength of each on an ordinary war footing:

From off the waters of Buckeye Lake the sixty tents of the fourth annual Summerland Beach Chautauqua, under the auspices of Denison University, which opened Sunday and closes August 13, bears a semi-similarity to a military encampment. All of the cottages are engaged for the Chautauqua, the hotel is filled to its capacity and all of the tents are full. Everything at Summerland Beach on Sunday was perfect, the stillness broken only by the lashing of the small waves on the shore and the music of the church choir, every-

thing was in true harmony with the observance of Sunday. At 6:15 in the morning those present at the Chautauqua gathered in the auditorium for an early morning prayer meeting. At 10:30 o'clock Rev. F. A. Agar preached on "Slaying the Lion," in the afternoon the Cathedral Choir company rendered a sacred concert; in the evening vespers were held at 6:30 o'clock and were followed by a prelude by the Cathedral Choir, after which Rev. F. A. Agar delivered another sermon on "Heroism, Humor and Pathos of Missions." About 700 people were on the grounds Sunday. This exceeds the number which was present at that time last year, and everything augurs that the attendance of this annual institution will be far in excess of last year or any year before. Nearly all of the prominent cities of Ohio are represented, and the sale of season tickets in central Ohio is larger than

ever before. The attendance at the Chautauqua last year was 1,500 hundred people.

The sermon of Rev. F. A. Agar, who has been a missionary in Congo Free State, and has spent 11 years in missionary work on the western frontier of the United States, traveling 50,000 miles in the last 12 years, did not deal with missionary work. The story of his missionary life he reserved for the evening. The text of the morning was taken from the second book of Samuel, chapter 23 and verse. It dealt with the deeds of Benaiiah, and the morals of the sermon drawn from the deeds that are cited in this text.

Following is a citation of the story of Benaiiah given by Rev. Mr. Agar: "And Benaiiah who had done many acts went down also, and slew a lion in the peak in the time of snow." The speaker spoke of the vision of Benaiiah that sent him out to hold service. Service means going down into that pit the only way out of which is by the way that goes down through service. "When he served he slew according to the promise of God."

When the Cathedral Choir gave its program in the afternoon and giant auditorium which seats 3,500 people was not more than one-fifth full. The program of the choir company consisted of sacred music interpolated by several selections from the better known and more highly appreciated operas.

The program of the afternoon was opened by the entire company of nine people singing the "Festival of Te Deum." The union and harmony in this excellent piece of sacred music was greatly appreciated. This was followed by a solo, "Softly Floating on the Breeze," by Miss Mae Johnson. Miss Johnson possesses a strong and delightful soprano voice, and her number was vigorously encored.

Probably the most entrancing and fascinating number of the afternoon was a rendition of "The Sweet Story of Old" given in the form of a reading. This number carried with it an air of sweetness that after the selection was concluded kept the audience literally hanging on its words. The number was rendered by Mr. Bailey. "Inflatus," taken from "Rossini's

"Stabat Mater," was rendered by the entire company. This classical number was the equal of the opening number in harmony and is of excellent quality.

"Barcarolle," from "Tales of Hoffman," played by Mr. Johnson on the piano, and "Hark, Hark My Soul!" sung by the chorus, were among the better known of the numbers.

Claud Sauer, who sang "Curulis Anna," possesses an unusual tenor voice and responded to the most vigorous encore of the afternoon.

The program was closed by the chorus singing "Unfold Ye Portals" from the "Redemption."

The vesper services which were conducted by Rev. J. C. Carman, who

takes charge of the Sunday school work, were well attended.

After the prelude of sacred music rendered by the Cathedral Choir company, the sermon by Rev. Mr. Agar was delivered.

The sermon on "Heroism, Humor and Pathos," was illustrated and made up principally of stories of missionary life and the trials and vicissitudes which the missionary must go through. The story of the founding of the Crow Indian mission by W. A. Pritchard, who when he landed at one of the Indian lodges in Montana stepped off a Pullman car onto a board 20 by 12 feet wide, was told by the speaker. When the train pulled out the missionary looked for the depot but found none. Then wandering, his gaze to find a hotel—there was none in sight. Off in the darkness he could see the tepees of the Indians. The first night he slept in one of them he found other things besides Indians not agreeable to white men.

There are 12 buildings, a strong church and one section of the reservation is under the influence of Christianity. The price that the missionary paid was the bearing of untold hardships by himself and wife who died simply because they were out of reach of proper care.

The Bible classes started Monday morning with a large attendance, and all who complete the work in these classes and submit creditable note books for examination will be awarded diplomas in a commencement that will be held for them on the closing day of the Chautauqua.

The assembly chorus is a new fea-
